

Sameena Aafrin

TECHNICAL PRODUCT & GTM STRATEGIST

mrandmrskgen@proton.me | +91 93611 50501 | linkedin.com/in/sameena-aafrin | aafrin.framer.website

SUMMARY

Technical Product & GTM Strategist with a Computer Science Engineering background, specialising in market and competitive research, product positioning, technical storytelling, and go-to-market execution for early-stage AI, Web3, and infrastructure products. Scaled a developer infrastructure product from **\$0 to \$20K+ MRR** and **0 to 1.7K+** developers, and author the whitepapers, technical documentation, and launch narratives behind them.

EXPERIENCE

Senior Content Strategist | KGeN (Humyn Labs)

Mar 2026 – Present

- Own end-to-end product narrative and technical content: authored the **whitepaper, GitBook, and all external public documentation**, establishing the product's canonical technical positioning for developers, partners, and investors.
- Drove **2M+** organic impressions and a **13%+** lift in engagement rate in 5 months across technical articles, video, and explainers; technical articles average **40–60K** impressions each.
- Ran paid acquisition through X Ads Manager, generating **5M+** impressions on **under \$400** in spend, with **65%+** of impressions reaching non-followers.
- Designed and led a CoinMarketCap KOL campaign reaching **1M+** impressions, lifting holder count **4%+**, follower growth **8.5%+**, and watchlist adds **6.3%+**.
- Planned and led KOL activations and campaigns on X averaging **200K** impressions per week, and am building a network of AI researchers and developers to seed technical credibility and distribution.

Research & Growth | Arcane Labs

Dec 2025 – Mar 2026

- Led **market research, competitive analysis, product messaging, and GTM** for Microset (live sports prediction market) and Tide (perp DEX aggregator).
- Wrote technical and market-facing launch content and deep dives across four products — Microset, Tide, Mutant (voice AI assistant), and Runner (fair-launch token platform).
- Designed early distribution and community messaging, achieving **18K+** peak impressions on X and **80+** product signups in **under 24 hours**.
- Built investor-facing materials including pitch decks, product mockups, and market sizing.

Lead BD & Growth | Astralane

Jun 2024 – Nov 2025

- Scaled revenue from **\$0 to \$1K+ MRR in 5 months** and to **\$20K+ MRR** within the next 4 months by owning end-to-end growth, research, and inbound, and establishing partnerships across trading-bot teams.
- Built and scaled the developer community from **0 to 1.7K+** devs and HFT firms in **3 months**, converting the initial pipeline at **80%+**; owned onboarding and technical support.
- Authored technical content for HFTs, validators, searchers, and infra builders that ranks **#1 in Google search results** and earned recognition from Solana co-founder Anatoly Yakovenko — driving early-stage credibility and user adoption.
- Drove global top-of-funnel via technical content: **80K+** peak impressions on X, **40K+** on Reddit, **2K+** on LinkedIn, plus penetration of hard-to-reach Chinese platforms (Juejin, WeChat, Weibo, QQ).
- Partnered with quants on latency benchmarks and competitive execution-path analysis; fed insights directly into product improvement and technical marketing, **increasing user retention 25%+**.
- Led ecosystem activation through AMAs and in-person events across **8+ cities** globally; produced founder and investor assets including the Apex Solana / OnlyDevs keynote and pitch deck.

Salesforce Developer | Inno Valley Works

Jul 2023 – May 2024

- Core engineer shipping production features across LWC, Aura, Apex, Triggers, Platform Events, APIs, and automation pipelines; led technical demos and solutioning for international and domestic clients.

Freelance Technical Content Writer

Apr 2020 – May 2024

- Wrote long-form technical and research content for US, EU, and Asian clients across SaaS, consumer products, and Web3 — specialising in technical explainers, competitive analysis, SEO, and research-backed narratives.
